

Objective advice. Built for confident action.

CAPABILITY STATEMENT

Senior perspective, grounded in delivery.

SV Strategy Services helps public and private sector leaders set technology direction, shape target architectures, select solutions, strengthen delivery, and prepare organizations for change. Advice is independent, evidence-led, and informed by experience spanning strategy through implementation.

CORE SERVICES

01 Technology strategy & roadmaps

Maturity, direction, investment logic, cost optimization, and sequenced roadmaps.

02 Enterprise architecture & operating models

Capabilities, processes, governance, information, platforms, and transition architecture.

03 Strategic sourcing & solution selection

Requirements, market analysis, RFX support, evaluation, due diligence, and selection.

04 Project assurance, readiness & delivery oversight

Delivery-health reviews, readiness frameworks, risk analysis, and executive reporting.

05 Transformation delivery & implementation

Governance, process modernization, change support, Agile delivery, and quality assurance.

HOW WE ENGAGE

Duration

A few weeks for focused strategy through multi-month or longer delivery support.

Commercial

Fixed-fee or time-and-materials arrangements.

Delivery

Remote and hybrid, with on-site availability.

Partnering

Direct engagements and subcontracting opportunities.

SELECTED EXPERIENCE

Evidence across sectors and the transformation lifecycle.

The examples below were personally led and delivered by the founder across his consulting career, including in prior roles. Client identities and sensitive details are withheld.

PUBLIC SECTOR / STRATEGY

From IM/IT cost visibility to a transformation roadmap

Connected maturity, financial, workforce, comparator, and operating-model evidence into prioritized work packages and an executive roadmap.

GOVERNMENT / ASSURANCE

Readiness for enterprise HR and pay transformation

Supported oversight across 18 interdependent workstreams and refined an objective readiness scorecard with more than 50 senior stakeholders.

DEFENCE / DELIVERY

Operational renewal and performance management

Used evidence from more than 20 locations across five workstreams and supported an SAP-based performance-management pilot.

PRIVATE SECTOR / ARCHITECTURE

A target architecture for growth through acquisition

Aligned two operating businesses around finance, CRM, leasing, rentals, integrations, and a practical implementation path.

HEALTHCARE / SELECTION

Two connected enterprise platform selections

Linked client services, HR, payroll, finance, process redesign, procurement, change readiness, and implementation planning.

PRIVATE SECTOR / SOURCING

Finance modernization across eight subsidiaries

Made workflow improvement, integration, reporting, demonstrations, scoring, implementation, and commercial terms part of the platform decision.

FOUNDER CREDENTIALS

Srivatsan Vijayakumar

15+ years across technology strategy, enterprise architecture, sourcing, project assurance, and complex delivery. MBA and Computer Engineering. PMP, TOGAF, CISA, CSPO, and Professional Scrum Master.

Ottawa-based

Serving organizations across Canada and globally.

Security

Founder: active GC clearance.
Corporate clearance: not currently held.
